

Rocker

Switches

On/Off Switch with LED Indicator

FEATURES

- High quality illuminated circular rocker switch to fit 20mm panel cut out.
- On/Off, single pole single throw (SPST) function.
- Illuminated point of light lens with a symbol on the rocker.
- Suitable for both 12 volt and 24 volts.
- Carries ENEC (European) and UL (American) approvals at mains voltages and complies with RoHS.

SPECIFICATIONS

Compliance: ENEC, UL, RoHS;

Operating Voltage: 12~24VDC

Current Rating: 20A@14VDC / 10A@28VDC

Insulation Resistance: DC 500V 100M ohm Min.

Dielectric Strength: AC 1500V 1 minute

Switch Function: 3P SPST ON-OFF (LED dependent)

Termination: 4.8mm Male Blade Terminals

Panel Cut Out: 20mm (see drawing)

Fixing: Snap In

Circuit: On-Off

LED Colour: Amber, Blue, Red, Green

Symbols: Siren, Scene/work Lamp(s), Warning lamp(s), Head Lights

Material:

Frame - Nylon 66
Actuator: Nylon 66
Lens - Polycarbonate (PC)

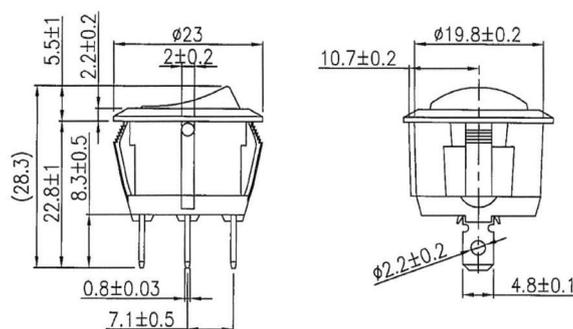

Print: White (Hot Stamping)

Material Colour: Black

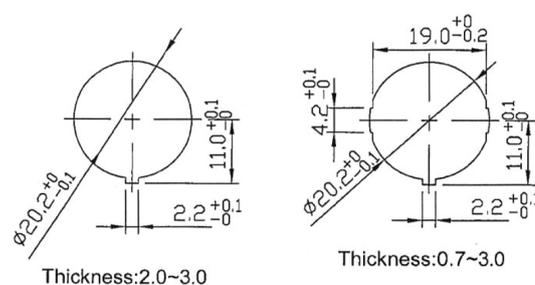

Operating Temp.: -25°C~85°C

Warranty: 2 years
